

YOUR BUSINESS PARTNER
IN MINING AND PROCESS SOLUTIONS

Conveyor Projects

www.ManhattanCorp.com

Typical Scope of Supply

- Design, Manufacture, Supply & Installation of Customized Conveyor Systems
- Drive size, drive arrangement & take up design
- Structural analysis & support trestle design
- Design of feed & discharge chutes

Refurbishment Options

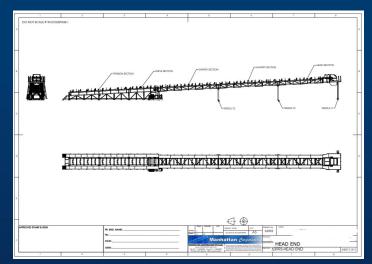

Re-engineering & modifications

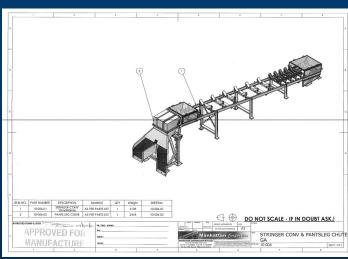

Applications

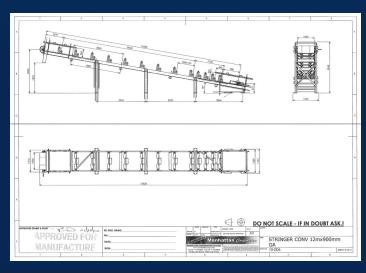

- Box or stringer conveyor structures
- Overland or Plant Infrastructure
- Underground pipe or channel steel structures - floor mounted or roof slung
- Stacker conveyors: permanent or mobile allowing for loft & slewing motions
- Bucket elevators
- Pipe & Screw conveyors

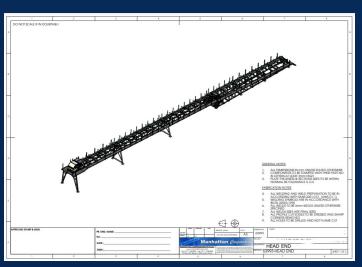

Design Capability

- Mechanical design calculations
- Structural design & Analysis
- Design of plant layout
- Electrical design & interlocks
- General arrangement & shop drawings
- Designed to CEMA & SABS Standards

System Capacity 1200 tph

- 1x Radial Stacker, 270 degrees slew,
 1200mm x 42m long
- 1x Conveyor 2 (Overland): 1200 t/h;
 1200mm x 184m long
- 1x Conveyor 3 (Garland): 600 t/h;
 1200mm x 74m long
- 1x Conveyor 4 (Garland): 600 t/h;
 1200mm x 100m long
- 1x 1500 TPH Feeder Breaker
- Radial Stacker Unique Center drive to reduce overhanging head weight

• Capacity: 300 tph

Product: Coal

Lump size:40mm maximum

• Length: 33m

Height: 4-10m
 hydraulically adjustable

• Fed by: FEL

Width: 900mm

Belt Speed: 2m/s

 Drive: 2 x 7.5kW shaft mounted helical/bevel motor gearbox with integral holdback

 Mobility: Conveyor is mounted on pneumatic wheels and fitted with tail tow hitch

Overland Ash Dump Modular Conveyor System

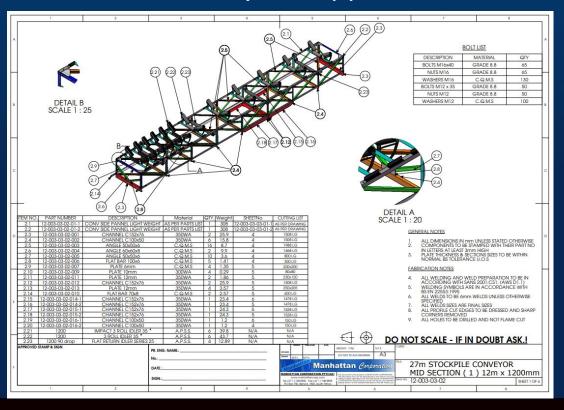

- Capacity: 1000 tph
- Length of conveyor 700m
- CO2 Welding: + 10kms
- Steel Material: +250t
- Sand Blasting & Painting: +4000m2

Stockpile Conveyor

- 400 tph
- 27m x 1200mm
- Feeder Conveyor, hopper & chute

Throughput: 400 tph

- 1050mm wide Feeder Conveyor system
- Structure Length: 14m
- 9.5 cubic meter capacity feed bin
- Wheel mount, towable system
- Motor: 15kW single drive
- Belt Speed: 1.3m/s
- Maximum lump size: 300mm

- Capacity 300 tph
- Conveyor 1; 16m long stringer conveyor with receiver chute at tail end, heavy duty to cater for 300mm rocks.
- Belt width of 900mm @ 2.5m/sec (client request) capable of 100 tph, fitted with discharge chute to transfer material onto conveyor 2.
- Conveyor 2; 21m long stringer conveyor with receiver chute at tail end, Belt width of 900mm @ 2.5m/sec (client request) capable of 100 tph, fitted with pneumatically operated Y-Chute.

Capacity 100 tph

Grasshopper Conveyor

- 10 units: 13m long x 600mm wide
- Belt speed: 1m/s

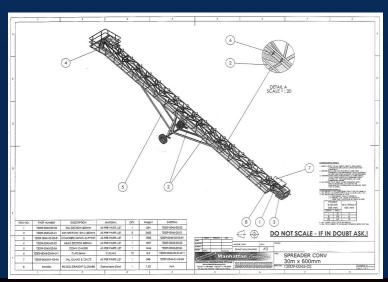

Spreader Conveyor

- 30m long x 600mm wide
- The drive unit is a 7.5kW integral motor/gearbox mounted on the shaft of the head pulley.
- Belt speed: 1 m/s

1500mm x 30m Conveyor

• 75kW motor

• Belt speed: 1.586m/s

• Belt width: 1500mm

1200mm x 62m Conveyor

• 30kW motor

• Belt Speed: 1.539m/s

• Belt width: 1200mm

1200mm x 60m

55kW motor

• Belt Speed: 1.535m/s

• Belt width: 1200mm

1200mm x 20m

• 30kW motor

• Belt speed: 1.839m/s

• Belt width: 1200mm

1500mm x 60m

110kW motor

• Belt speed: 1.491m/s

Belt width: 1500mm

1500mm x 26m

37kW motor

Belt speed: 1.342m/s

Belt width: 1500mm

- Extended main conveyor and supplied:-
- 3x Off grasshopper type conveyors 750mm wide by 20m long and
- 1x Off stacker conveyor 750mm

 The design, manufacture and supply of a 1500m long x 1500mm wide Overland Conveyor.
